

GRAPHIC ERA HILL UNIVERSITY, DEHRADUN

Profiling Sheet

Q.1: Write your career objective.

My career objective is to excel as a software engineer by leveraging my technical skills and problem solving abilities, contributing to innovative projects, and growing as a professional in a dynamic environment.

Q.2: Why do you want to be an engineer? Elaborate reasons.

I want to be an engineer because it allows me to apply creativity and logic to solve real world problems. I am driven by innovation, technology and the satisfaction of building solutions that make a tangible impact.

Q.3: Write about projects or internship you have done/ are doing along with the learning.

I have developed a Pharmacy Medicine Management System in C. This helped me understand basic programming logic, file handling and problem solving technique. I am also learning Data Structures and Web Development to improve my technical knowledge.

Q.4: What would you consider a significant achievement in your life and why?

A significant achievement in my life was completing my first major programming independently. It demonstrated my problem solving abilities, dedication and ability to apply theoretical knowledge practically. This taught me patience, discipline and importance of consistent effort.

Q.5: Write about a failure of yours which you consider to share. What have you learned from it?

I once mismanaged my time during a project which led to delays and unnecessary stress. This experience taught me value of planning and working consistently. Since then, I have improved my time management habits and have become more disciplined in prioritizing tasks.

Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.

My strengths are I communicate clearly and work well with others and adapt to new situation quickly. During Group projects I helped simplify complex tasks and coordinated the team effectively. Also during my new assignment, I quickly learned the required skills and delivered quality work within a short time.

Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?

Weakness: I tend to overthink small details which
sometimes slows my speed.

Improvement: I am learning to set time limits for decisions,
focus on priorities and trust my initial judgement where the
impact is minor. This has improved my efficiency and clarity.

Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?

One of the most difficult moments was when I encountered
a persistent bug in my project that halted the entire
flow. It was frustrating and time consuming.

Qualities like self-believing, consistency, patience,
and logical thinking allowed me to stay focused, explore
different approaches and eventually solve the issue successfully.

Q.9: Apart from academics, what else are you interested in?

Make a separate list in terms of extracurricular activities, sports and any other interests.

Extracurricular: Coding, Contests, Group Discussions

Sports: Table Tennis, Yoga

Other Interests: Exploring new software tools,
organizing tasks and planning.

Q.10: Give an example of an area, concept or thing that you are absolutely passionate about.

I am passionate about AI and ML. The idea of creating intelligent systems that learn, predict and enhance human capabilities excites me. I enjoy exploring real world applications like AI, automation and smart analysis.

Q.11: Describe yourself as an individual in 5 lines.

I am a focused and self-driven person who adapts quickly to new situations. I value teamwork and communicate clearly to keep things running smoothly. With a strong desire to learn and grow, I'm always improving myself, even under pressure. I stay calm and look for practical solutions.

Q.12: What kinds of people do you enjoy working with?

I enjoy working with people who are cooperative and open to learning, respectful and motivated. Such teamwork encourages growth and better results.

Q.13: What kinds of people you don't want to work with?

What would you do if they became your senior in your dream job?

I find it difficult to work with people who are negative or unwilling to collaborate. If such a person becomes my senior I would remain professional, respectful and focus on learning with maintaining clear communication.

Q.14: What do you expect from your first job? Prioritize and write in order.

- 1) Learning and skill development
- 2) Exposure to real world projects
- 3) Supportive and professional work culture
- 4) Opportunity to grow and take responsibility
- 5) Fair recognition and feedback

Q.15: In the past year, what have you been dissatisfied about in your performance?

In the past year, I felt dissatisfied with my pace of learning advanced technical topics - I have now created a structured study routine and started practicing coding consistently.

Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?

I would rate myself 3.5 out of 5. To improve I regularly practice and participate in group discussions, speak in English during presentations,

and practice articulation through online course. This has strengthened my fluency, clarity, and confidence.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My role model is my father. I admire his discipline, patience and calm way of handling challenge. I want these qualities in myself because they help a person stay focused, strong and responsible. His example motivates me to improve and grow every day.

Q.18: Write a few lines about your friends. Do you think they help/ may help you in achieving your goals? If yes, how? If no, why do you accompany them?

My friends are supportive, focused and encouraging. They motivate me to improve, help me stay disciplined, and contribute positively to my personal and academic growth. They inspire healthy competition and share useful knowledge, which helps me stay aligned with my goals.

Q.19: Write 3 leadership qualities. How many do you possess? Write an instance where you have applied those qualities.

Three leadership qualities are communication, responsibility and decision making. I possess two of them strongly. During group tasks, I have taken responsibility for organizing work and ensuring timely

completion I divided tasks based on strengths, kept the team motivated, ensure proper communication and took responsibilities.

Q.20: So finally, tell us something more about yourself or introduce yourself.

My name is Anshika Garg and I am currently pursuing computer science Engineering from Graphic Era hill University. I am a focused and positive individual who believes in continuous learning and self improvement. I adapt quickly to new environments, communicate well and handle challenges with a calm and solution oriented mindset. I am constantly working toward becoming a better version of myself both personally and professionally.
